PAGE.† *n. s.* [*page*, French. Dr. Johnson. — From *pagina*, Latin.]

1. One side of the leaf of a book.

If a man could have opened one of the *pages* of the divine counsel, and seen the event of Joseph's being sold, he might have dried up the young man's tears.

Bp. Taylor.
Thy name, to Phæbus and the muses known,
Shall in the front of every *page* be shown.

Dryden.
A printer divides a book into sheets, the sheets into *pages*, the *pages* into lines, and the lines into letters.

Watts.
2. [*page*, Fr. Dr. Johnson. — Mr. Tooke contends, that "pack, patch, and *page*, are the past participle *pack*, (differently pronounced, and therefore differently written with *k*, *ch*, or *ge*.) of the Saxon verb *pæcan*, to deceive by false appearances; — and as servants were contemptuously called harlot, varlet, valet, and knave; so were they contemptuously called *pack*, *patch*, and *PAGE*. And from the same source is the French

page, and the Italian *paggio*." Divers of Purley, ii. 369, 370. This etymon, ingenious as it may seem, is hardly the true one of *page*. Henry Stephens and others have derived it from the Greek *παῖς*, at first signifying a boy, afterwards, a servant. Fauchet thus speaks of the French word: "Le mot de *page*, jusques au temps des rois Charles VI. and VII., sembloit être seulement donné à de viles personnes, comme à garçons de pied. Car encore aujourd'hui les tailleurs appellent *pages* ces petits valets, qui sur des pallettes portent seicher les tuilles vertes." Hence perhaps the derivation of it by others, from the Lat. *pagus*, a village; with the remark that in Languedoc and Gascony, a countryman is called *page*. See this appellation confirmed in Dict. de la Langue Toulousaine, 1638. "Pages, paisan, villageois. *Fa la pagesso*, faire le pot à deux anses, mettre les mains sur les roignons, se quarquer; c'est un terme de *nourrice*." However, Fauchet and Menage agree that *page* at first signified a boy; so the Su-Goth. *poike*, a boy, as Serenius has observed, as well as the Greek *παῖς*; and the Goth. word, as Wachter also remarks, seems to be the parent of the French and Italian. To assign for the etymon, therefore, what merely might denote the secondary sense of the word, and to take no notice of the primary, is at least an irregular deduction. *Page*, in our own language also, like *knave* and *knight*, at first signified a *boy-child*; then a *boy-servant*, or *attendant*; though neither Dr. Johnson nor Mr. Tooke have thought proper to notice this distinction.] A boy-child.

A daughter hadden they betwix them two,
Of twenty yere, without any mo,
Saving a child that was of half yere age,
In cradle it lay, and was a propre *page*.

Chaucer, Reve's Tale.

It may perhaps be *payen geant*, a *pagan giant*, a representation of triumph used at return from holy wars; as we have yet the Saracen's head. Dr. Johnson. — Mr. H. Tooke considers *pageant* as merely the present participle *pæceand*, of the Sax. *pæcan*, to deceive; *pæcheand*, *pæcheant*, *pageant*. Div. of Purl. 370.]

Menage.] A privation of motion or feeling, or both, proceeding from some cause below the cerebellum, joined with a coldness, flaccidity, and at last wasting of the parts. If this privation be in all the parts below the head, except the thorax and heart, it is called a paraplegia; if in one side only, a hemiplegia; if in some parts only of one side, a paralysis. PALTRY.† *adj.* [*poltron*, French, a scoundrel; *paltrocça*, a low whore, Ital. Dr. Johnson.—Rather from the Su. Goth. *paltor*, rags; or Teut. *palt*, a scrap, a fragment. We had formerly the word *palting*, in the sense of *worthless*, *mean*; and *pelting*, which Dr. Johnson has admitted into his Dictionary, confessing, however, that he knows not why it should signify *paltry*. The reason now is shewn, it is presumed. Mr. H. Tooke considers *paltry* as a participle, jointly with *poltron*; that is, formed of the Latin *pollice truncos*, having the thumb cut off. Div. of Purley, ii. 25, 26.—The plain and simple deduction from the northern words, which so clearly designate what is sorry, worthless, despicable, and mean, will doubtless be preferred. "I desire maister Immerito to send me some odde fresh *palting* three-half-penny pamphlet." Gab. Hervey, Lett. to Spenser, 1580. Mr. Malone had not overlooked this passage; and it is to be wondered, that Mr. Tooke should not have here attended to our old word; which might have induced him to discard the quaint etymon of *pollice truncos* for *paltry*. The Scotch use the substantive *peltry*; and Dr. Jamieson refers it, with our *paltry*, to the Su. Goth. *paltor*, or the Teut. *palt*. See also Serenius. The use of the Scottish noun, in the sense of vile trash, Dr. Jamieson might further have illustrated by the old English *pelter*, a term of contempt, applied to a mean despicable person: "*Pelter*, pynche-peny, one wythered with covetousness." Huloet's enlarged Dictionary. See also PELTING. We had also *paltry* formerly as a substantive. "The papists packing away their *paltry*." Fox's Acts and Mon. ii. 1294.] Sorry; worthless; despicable; contemptible; mean.

Dr. Johnson has noticed this meaning

from Sir Thomas Hamner, with the re-

PANTHEISTICK,* *adj.* Confounding God
with the universe.

Let any one but seriously consider the *pantheis-
tic* system, whether it be not as wild enthusiasm
as ever was invented and published to the world.

It supposes God and nature, or God and the whole
universe, to be one and the same substance, one

universal being; inasmuch that men's souls are
only modifications of the divine substance: from

whence it follows, that what men will, God will
also; and what they say, God says; and what they
do, God does.

Was there ever any raving enthu-
siast that discovered greater extravagance? This
doctrine first owed its birth to pagan darkness,

and revived afterwards among the Jewish cabbal-
lists: from thence it was handed down to Spinoza,
who was originally a Jew; and from him it de-
scended to the author or authors of the Pantheis-
tic; who, while they are themselves the greatest
visionaries in nature, yet scruple not to charge the
Christian world with enthusiasm.

PANTOMIME,† *n. s.* [*πᾶν* and *μίμος*;
pantomime, Fr. Dr. Johnson. — The

word seems not to have been anglicised very early in the seventeenth century. Dr. Johnson's earliest example is from Hudibras. Bacon and Ben Jonson use the Latin form, *pantomimi*. PA'RASANG.† *n. s.* [*parasanga*, low Lat. *parasange*, Fr. *παράσαγγος*, Gr. "The word *pharsang* is ancient, and to this day continued all over the Persian dominions: it is derived from *persa*, and appropriated to the dialect yet used in Persia; or (which is more likely) from the Hebrew and Arabick, where the word *persa* signifies three miles, three of which the Jews might travel without breach of the sabbath. Pliny calls it *parasanga*, and makes it to be four Ita-

lian miles; which if so, it equals the German. Xenophon phrases it *pharsanga*, and computes it thirty furlongs or stadia, every furlong being 40 poles in length, or twenty-five spaces; so that accounting eight furlongs to an English mile, a *pharsang* is three miles and a half English, and two furlongs over." Sir T. Herbert, *Travels*, ed. 1677, p. 117.] A Persian measure of length.

PARASITE.† *n. s.* [*parasite*, Fr. *parasitus*, Lat. Dr. Johnson—From the Gr. *παράσιτος*, near, and *ἵστος*, corn. "The office of the *parasiti* was at first of great honour, for, by the ancient law, they were reckoned among the chief magistrates. Their office was to gather of the husbandmen the corn allotted for publick sacrifices. Their charges were defrayed by these publick revenues. The publick storehouse, where they kept these fruits, was called *παράσιτον*. Diodorus the Sinopesian in Athenæus tells us, that, in every village of the Athenians, they maintained at the publick charge certain *parasiti* in honour of Hercules; but afterwards, to ease the commonwealth of this burden, the magistrates obliged some of the wealthier sort to take them to their tables, and entertain them at their own cost; whence this word seems in later ages to have signified a *trencher-friend*, a *flatterer*, or one that for the sake of a dinner conforms himself to every man's humour. Thus indeed Casaubon interprets that passage; but the meaning of it seems rather to be this: That whereas in former times Hercules had his *parasiti*, the rich men of later ages, in imitation of this hero, chose likewise their *parasiti*, though not *χαρίεσται*, such as Hercules used to have, but *τὰς κολακείων δύναμεις*, such as would flatter them most." Potter's *Antiq. of Greece*, B. 2. ch. 3.] One that frequents rich tables, and earns his welcome by flattery.

PARASOL.† *n. s.* [Fr.] A small canopy

or umbrella carried over the head, to shelter from rain and the heat of the sun.

Dr. Johnson, from some dictionary, but

without any example. Mr. Mason, after

his manner, sneers at Dr. Johnson for

confounding the *parasol* with the *umbrella*;

informing us, that umbrellas

against rain are of different materials

and size from mere *parasols*, the use of

which (according to their name) is only

against the sun. This is true enough

of the little female ornament of modern

times; but Mr. Mason knew nothing of

the old *parasol*; (for he also could find

no instance of the word,) which was

called an *umbrella*, and was of a reasonable

umbrella size, we may judge, from the

following examples; though certainly

its use may have been intended only to

guard against the sun.

of another great man, over whose head one officer

holds a *parasol*, another a lamp.

If *pare* be used before the thing diminished, it is followed immediately by its accusative; if it precedes the thing taken away, or agrees in the passive voice with the thing taken away, as a nominative, it then requires a particle, as *away, off*.

PARTICIPIAL.† *adj.* [*participialis*, Lat.]

Having the nature of a participle.

The participle, with an article before it, and the preposition of after it, becomes a substantive, expressing the action itself which the verb signifies. This rule arises from the nature and idiom of our language, and from as plain a principle as any on which it is founded; namely, that a word which has the article before it, and the possessive preposition of after it, must be a noun; and if a noun, it ought to follow the construction of a noun, and not have the regimen of

a verb. It is the *participial* termination of this sort of words, that is apt to deceive us, and make us treat them as if they were of an amphibious species, partly nouns, and partly verbs. — That these *participial* words are sometimes real nouns, is undeniable; for they have a plural number as such: as, "the outings of the morning."

PAT.† *adj.* [*pas*, Teut. *opportunitas*, Skinner. And so Serenius: *pass*, Sueth. *propositum*, *passa*, quadrare. Others have considered it, by a change of letters, to be from the Latin *aptus*, fit, apt.] Fit; convenient; exactly suitable either as to time or place. This is a low word, and should not be used but in burlesque writings, Dr. Johnson says. It is not now used, but as Dr. Johnson directs, or in colloquial expression. Yet formerly our best writers employed it in their most serious compositions; as Barrow, and Goodman, from whose works examples are now brought. See also PATLY and PATNESS. Dr. Johnson has considered this word only as an adjective; but it is used adverbially, as the two examples from Shakspeare, (which I have removed hence,) and other authorities, plainly shew.

Sometimes it [facetiousness] lieth in *pat* allusion to a known story. *Barrow, Serm. i. 177.*

PAT.† *n. s.* [*patte*, Fr. is a foot, and thence *pat* may be a blow with the foot. Dr. Johnson.—Others derive it from the Fr. *bata*, a blow; and that from the very ancient word *bata*, as Serenius observes, to strike. It may, by a metathesis, how-

ever, be no other than the word *tap*, a gentle blow. See TO TAP.

PATCH.† *n. s.* [*pezzo*, Italian. Serenius considers it, by a change of letters, no other than *botch*, from the Goth. *boeta*, *bota*. Mr. H. Tooke contends that *patch* in both its applications, viz. to men and clothes, is the past participle of the Anglo-saxon verb *pæcan*, to deceive by false appearances, imitation, resemblance, or representation.]

4. A small particle; a parcel of land.

5. A paltry fellow. Obsolete. "It seems probable that fools were nicknamed *patch* from their dress; unless there happen to be a nearer affinity to the Italian *pazzo*, a word that has all the appearance of a descent from *fatuus*. This was the opinion of Mr. Tyrwhitt.—But, though a *patch* denotes a fool or simpleton, and, by corruption, a clown, it seems to have been occasionally used in the sense of *any low or mean person*. Thus in the *Midsummer Night's Dream* Puck calls Bottom and his companions a

crew of *patches*, rude mechanicals, certainly not meaning to compare them to pampered and sleek buffoons. Whether in this sense the term have a simple reference to that class of people whose clothes might be pieced or *patched* with rags, or whether it is to be derived from the Sax. verb *pæcan*, to deceive by false appearances, as suggested by the acute and ingenious author of the *Divisions of Purley*, must be left to the reader's own discernment." Douce, *Illustr. of Shakspeare*, vol. i. p. 258.

He [was] yet more fool in Plautus, whome his malaperte squire made to believe that all women accepted him so *fiyre*, as they ran in every place after him. The *patches*, supposing it to be true, said, It is a great paine to be an over *fiyre* man!

his country. This word is old in our
language. Cotgrave calls a "*patriot*,
one's countryman," in V. PATRIOTE.
The French *patriot* he renders "a
father or protector of the country."
Bishop Hall uses *patriot* in its present
good meaning; but Dr. Johnson has
produced no other example than from
the writers of queen Anne's time.

Joseph — merited the name of the saviour of
Egypt. And if any worthy *patriot*, out of a like
providence, shall beforehand gather up the com-
modities into a public magazine, for the common
benefit and relief of the people, upon the pinch
of an ensuing necessity, he is so far out of the reach
of censure, as that he well deserves a statue with
the inscription of a public benefactor.

PA'TRIOT.* *adj.* Actuated by the care of
one's country; wishing and endeavouring
to promote the publick good.

Whose ardent bosoms catch this ancient fire!
Cold interest melts before the vivid flame,
And *patriot* ardours, but with life, expire. *Shenstone, El. 2.*

PATRIOTICK.* *adj.* Full of patriotism.
Dr. Johnson has repeatedly used this
word in an ironical way.

a learning with the ancients, ought to be looked
upon as a detractor from the glory of Great Bri-
tain. *Farmer, Ess. on the Learning of Shakspeare.*

During the protectorship of Cromwell, a time

PA'TRIOTISM.† *n. s.* [from *patriot*.] Love

much in use; but in England now nearly

the other that the paved waters yielded a firm

PEASE.† *n. s.* [*Pea*, when it is mentioned

as a single body, makes *peas*; but when spoken of collectively, as food or a species, it is called *pease*, anciently *pease*;

pisja, Saxon; *pois*, French; *piso*, Italian;

pisum, Latin. Dr. Johnson. — *Pease*

was formerly used as the singular number, though now perhaps obsolete; but the regular plural of it, *peason*, is still spoken in several parts of England.

Two examples from our old poets will be sufficient to shew the use of *pease* (instead of *pea*) in the singular number:

"The vaunting poets found nought worth a *pease*." *Spenser, Shep. Cal. Oct.* "A bit of marmalade, no bigger than a *pease*."

Arbuthnot.

PEAT.† *n. s.* [*Peat* is dug out of the marshes from the depth of one foot to that of six. That is accounted the best,

which is nearest the surface. It appears to be a mass of black earth held together by vegetable fibres. I know not whether the earth be bituminous, or whether the fibres be not the only combustible part; which, by heating the interposed earth red-hot, make a burning

mass. The common opinion is, that *peat* grows again where it has been cut; which, as it seems to be chiefly a vegetable substance, is not unlikely to be true, whether known or not to those who relate it." Dr. Johnson, *Journ.* to the Western Islands. "*Peat*, as well as the blackish earth I have spoken of above, is a product of vegetation; but the spoils of the vegetables that form it lose much less of their bulk, and they retain their combustible faculty. These vegetables, at first simply withered, form a spongy mass, always soaked with water, on which new plants, some of them aquatic, grow in great abundance, and with much rapidity. It is, perhaps, owing to an antiseptic quality in some of these plants, that there happens such an accumulation of their spoils, constantly penetrated with water, without their undergoing any putrefaction; a circumstance that essentially distinguishes our *peat*-lands from marshes, for the air is always salubrious." M. De Luc, *Geol. Letters* to Prof. Blumenbach, Lett. 5. Br. Cr. 1794, vol. 4. p. 454.] A species of turf used for fire.

Turf and *peat*, and cowsheds are cheap fuels and last long. *Bacon*, *Nat. Hist.* Carew, in his Survey of Cornwall, mentions nuts found in *peat*-earth two miles east of St. Michael's Mount. *Woodward*.

Through the midst of it ran a sweet brook, which did both hold the eye open with her azure streams, and yet seek to close the eye with the purling noise it made upon the *pebblestones* it ran over. *Sidney*.

The bishop and the duke of Glo'ster's men, Forbidden late to carry any weapon, Have fill'd their pockets full of *pebblestones*.

Shakspeare. Suddenly a file of boys delivered such a shower of *pebbles* loose shot, that I was fain to draw mine honour in. *Shakspeare*. You may see *pebbles* gathered together, and a crust of cement between them, as hard as the *pebbles*. *Bacon*.

Where the common *peccability* of mankind is urged to induce commiseration towards the offenders; if this be of force in sin, where the concurrence of the will renders the person more inexcusable, it will surely hold much more in bare error which is purely involuntary.

As creatures they are *peccable*. *Waterhouse, Comm. on Fortescue*, p. 221.

This word had been introduced into our language long before the time of Dryden, from whose writings Dr. Johnson's earliest example is cited. It had also another meaning, which escaped the notice of Dr. Johnson. 2. A sort of stiff ruff. See **PICCADIL**.

PECK,† *n. s.* [from *pecca*, or perhaps from *pat*, a vessel. Skinner, and Dr. Johnson. — Serenius likewise gives the Sax. *pecca*, and the Icel. *poke*, a pouch, a sack, as the etymon. Mr. G. Chalmers cites from Ash the Sax. *pecca*; but where is that word to be found? It is an oversight, no doubt, for *pecca*. *Poke* is a northern word for all measures. We read, that these people, instead of holding their

TO PEEP* *v. n.* [This word has no etymology, except that of Skinner, who derives it from *ophessen*, Dutch, *to lift up*; and of Casaubon, who derives it from *ἐπιπνιγω*, a *spy*; perhaps it may come from *pip*, *pipio*, Latin, *to cry as young birds* : when the chickens first broke the shell and cried, they were said to begin to *pip* or *peep*; and the word that expressed the act of crying, was by mistake applied to the act of appearing that was at the same time : this is offered till something better may be found.]

1. To make the first appearance.
She her gay painted plumes disordered,
Seeing at last herself from danger rid,
Peeps forth, and soon renews her native pride.

they were called *ἐνσπνιβοι* in Greek.

Hail, king of Scotland. *Shakspeare, Macbeth.*

B. Jonson, Every Man out of his Humour.

PEERLESSNESS. *n. s.* [from *peerless*.] Universal superiority.

PEEVISH.† *adj.* [This word Junius, with more reason than he commonly

discovers, supposes to be formed by corruption from *perverse*; Skinner rather derives it from *beetish*, as we say *waspish*. Dr. Johnson.—Neither Junius, nor Skinner, in this instance, will probably be regarded. Serenius derives it from *pipa*, to pipe, figuratively to complain; and cites the Suet. *peplig*, querulous, morose. This, though not the real etymon, has led me to consider a kindred expression as the probable parent of our *peevish*; and that is the word *pew*, to complain; to emit a mournful sound, as applied to birds; a Scottish expression, which may be directly from the Fr. *piou*, the voice of chickens, in Cotgrave; as that is from the verb *piauler*, “to peep as a young bird, to pule or howl as a young whelp.” From this term of complaint might easily be formed, in order to denote a querulous person, the word *peevish*; and accordingly the Scotch have *pevische*, which Ruddiman calls *peevish*, among other explanations; and which, among the vulgar Scotch, is used, according to Dr. Jamieson, for niggardly, covetous. The origin, Dr. Jamieson adds, is quite uncertain. See his Scottish Dict. in V. PEUAGE, PEUTIS, PEUSISCHE. Thus our old word also was *pevisse*, or *pevisys*, as in the Morality of Hycke Scorne, where it means *silly, foolish*: “To learne to pater to make me *pevisys*.” And I may further observe that the word is *pewisch*, meaning *cross, froward*, in Woodroephe’s Fr. and Eng. Grammar, 4to. 1623, p. 294. “Sir, you will become so *pewisch*, that no man shall be able to endre [endure] you.”

1. Petulant; waspish; easily offended; irritable; intractable; soon angry; perverse; morose; querulous; full of expressions of discontent; hard to please.

She is *peevish*, sullen, froward,
Proud, disobedient, stubborn, lacking duty. *Shaks.*

Turn thou the mouth of thy artillery,
As we will ours, against these saucy walls. *Shaks.*

Neither will it be satire or *peevish* invective to affirm, that infidelity and vice are not much diminished. *Swift.*

2. Expressing discontent, or fretfulness.

For what can breed more *peevish* incongruities,
Than man to yield to female lamentations?

Sidney.

Those deserve to be doubly laughed at, that are *peevish* and angry for nothing to no purpose.

L’Estrange.

3. Silly; childish. [*Peevish* is translated into the Lat. *delirius*, by some of our old lexicographers.] This old sense is overpassed by Dr. Johnson; which indeed, as well as *peevishness* for *silliness*, is obsolete.

How now! a madman? Why thou *peevish* sheep,

What ship of Epidamnus stays for me?

Shakspeare, Com. of Err.

I will not presume
To send such *peevish* tokens to a king.

Shakspeare, Hen. VI. P. I.

Lily, Endym. (1591.)

PEEVISHLY. *adv.* [from *peevish*.] Angrily; querulously; morosely.

It will be an unpardonable, as well as childish *peevishness*, if we undervalue the advantages of our knowledge, and neglect to improve it. *Locke.*

Nothing but acid left behind:

When *peevishness* and spleen succeed. *Swift.*

To PEFF.* *v. n.* To cough short, and faintly; as sheep. North. Grose. *Peffin*, troubled with a short cough. Craver. Dialect.

PEG.† *n. s.* [*pegghe*, Teutonic; supposed by some to be from the Greek *πηγνύω, πηγνύμι*, to fasten or join; Dor. *πηγνυω*, to fix; or from the Su.-Goth. *picka*, to point, whence the Su. *pigg*, a spike.]

The *pegs* and nails in a great building, though they are but little valued in themselves, are absolutely necessary to keep the whole frame together. *Addison, Spect.*

3. To take a PEG lower; to depress; to sink: perhaps from relaxing the chords of musical instruments. Dr. Johnson.—There can be little doubt of this, as the following example from Bishop Hall will shew.

Those only know how to want, that have learned
to frame their mind to their estate; like to a skilful musician, that can let down his strings a *peg* lower, when the tune requires it.

Bp. Hall, Of Contentation, § 4.

Yet, when his love was false, he with a *peaze* it brake.

Spenser, F. Q. iii. ii. 20.

PELAGIAN.* *n. s.* One of the followers of Pelagius, a monk; who, at the beginning of the fifth century, formed his schism. He denied original sin; and maintained free will and the merit of good works.

Original sin standeth not in the following of Adam, as the Pelagians do vainly talk; but is the fault and corruption of every man that naturally is ingendered of the offspring of Adam, whereby man is very far gone from original righteousness, and is of his own nature inclined to evil, so that the flesh lusteth always contrary to the spirit.

Archiep. of Religion, Art. 9.

The Pelagians held man altogether by his will, so that as can alone enable him to do good, and to feeble him in blessedness.

Bp. Hall, Rem. p. 97.

PELAGIAN.* *adj.* Belonging to the notions of the Pelagians.

South, Serm. iii. 34.

PELF.* *n. s.* [In low Latin, *pelfra*, not known whence derived; *peuffe*, in Norman, is *frippery*. Dr. Johnson.—Our word was formerly *pelfry* or *pelfray*:

“Indulgences, beades, pardons, pilgrimages, and suche other *pelfray*.” Abp. Cranmer, Ans. to Bp. Gardiner, Pref. A. iij.

And I am thus led to think that it has the same origin as *paltry*, viz. *paltor*, Icel. rags, or *palt*, Teut. a scrap. Riches or money might contemptuously be called *pelf* or *rubbish*; as they also are *muck*; and the corruption of *pelt* into *pelf* is easy.] Money; riches.

2. A bullet; a ball to be shot.

The force of gunpowder hath been ascribed to rarefaction of the earthy substance into flame, and so followeth a dilatation; and, therefore, lest two bodies should be in one place, there must needs also follow an expulsion of the *pellet* or blowing up of the mine: but these are ignorant speculations; for flame, if there were nothing else, will be suffocated with any hard body, such as a *pellet* is, or the barrel of a gun; so as the hard body would kill the flame.

Bacon.

How shall they reach us in the air with those *pellets* they can hardly roll upon the ground?

L'Estrange.

In a shooting trunk, the longer it is to a certain limit, the more forcibly the air passes and drives the *pellet*.

PENSION.† *n. s.* [pension, Fr.]

1. A payment of money; a rent. This is the primary meaning, which Dr. Johnson has overlooked; and has cited no earlier example of the word, under his violent definition of it, than that from Addison. It is also a sum of money paid to some churches in lieu of tithes.

Our Saviour rejects all such unwise and perverse traders who will not exchange brittle glass for solid gold;—a small temporary pension for a vastly rich freehold. *Barrow, vol. iii. S. 15.*

2. An allowance made to any one without an equivalent. In England it is generally understood to mean pay given to a state hireling for treason to his country. Dr. Johnson.—This definition extremely puzzled the great lexicographer himself, when it was proposed to bestow a pension on him, in the year 1762. See Boswell's Life of Johnson. And the candid biographer informs us, that Lord Loughborough told him, "the pension was granted to Johnson solely as the reward of his literary merit, without any stipu-

lation whatever, or even tacit understanding, that he should write for administration!—His definitions of *pension* and *pensioner*, partly founded on the satirical verses of Pope, which he quotes, may be generally true; and yet every body must allow, that there may be, and have been, instances of *pensions* given and received upon liberal and honourable terms."—Undoubtedly: and the true meaning of *pension*, in its secondary sense, (however a pension may be sometimes undeservedly accepted and bestowed,) is the allowance made as an acknowledgement for any eminent and distinguished services.

It would be very agreeable to her Majesty, if the pension of 5,000*l.* per ann. were continued and limited by act of parliament to the duke of Marlborough's posterity, for the more honourable support of their dignities, in like manner as his honours, and the honour and manor of Woodstock, and house of Blenheim, were already limited and settled.

Cheyne, Philos. Prin.

PERIPATETICAL.* *adj.* [*περιπατητικός*,
PERIPATETICK.* *Gr.*] Belonging
 to the Peripateticks; denoting the Peri-
 pateticks. See the substantive.

Aristotle, our great master in the school of na-
 ture, would needs persuade us, that to make up
 a complete happy man, besides the inward virtues
 of the soul, there is required a measure of the
 outward benefits both of person and of fortune.
 But, beloved, these *peripatetick* discourses, that
 thus compound an happy man of so many ingre-
 dients, are like unto the bills of some deceitful
 physicians, who, to make the greater ostentation
 and shew of art, are wont to put in many ingre-
 dients, which do neither good nor harm.

Hales, Rem. p. 239.

Peregrination may be not improperly called a
 moving academy, or the true *peripatetick* school.

Those
Surnam'd *Peripatetics*, and the sect
Epicurean, and the Stoick severe. *Milton, P. R.*
2. Ludicrously used for one who is obliged to walk, who cannot afford to ride.

The horses and slaves of the rich take up the whole street, while we *peripatetics* are very glad to watch an opportunity to whisk cross a passage, very thankful that we are not run over for interrupting the machine that carries in it a person neither more handsome, wise, or valiant than the meanest of us. *Tatler, No. 144.*

PERI'PHERY.† *n. s.* [*περί* and *φεία*; *peripherie*, Fr.] Circumference.

PERIPHRA'STICALLY.* *adv.* [from *periphrastical*.] With circumlocution.

Dr. Grainger, — having become sensible that introducing rats in a grave poem, might be liable to banter; could not, however, bring himself to relinquish the idea; for they are thus, in a still more ludicrous manner, *periphrastically* exhibited in his poem [The Sugar-Cane] as it now stands: "Nor with less waste the whisker'd vermin race, A countless clan, despoil the lowland cane."

Boswell, Life of Johnson.

Johnson in V. Prospect, (Dict. 1772).

From these little fragments, the first of which is an example of the pathetic, and the second of the *picture-sque*, the manner of Sappho might have been gathered. *Dr. Warton, Ess. on Pope.*

This is described by striking and *picture-sque* personifications. *Warton, Hist. E. P. ii. 315.*

TO PIDDLE.† *v. n.* [This word is obscure in its etymology; Skinner derives it from *picciolo*, Italian; or *petit*, Fr.]

little; Mr. Lye thinks the diminutive of the Welsh *breyta*, to eat; perhaps it comes from *peddle*, for Skinner gives for its primitive signification, to deal in little things.]

1. To pick at table; to feed squeamishly, and without appetite.

From stomach sharp, and hearty feeding,
To *piddle* like a lady breeding. *Swift, Miscell.*

2. To trifle; to attend to small parts rather than to the main.

Now for those other *piddling* complaints,

Breath'd out in bitterness.

Massinger, New Way to pay Old Debts.

PIDDLE. *n. s.* [from *piddle*.]

1. One that eats squeamishly, and without appetite.

2. One who is busy about minute things.

PIE.† *n. s.* [This word is derived by Skinner from *biesan*, to build, that is to build of paste; by Junius derived by contraction from *pasty*; if pasties, doubled together without walls, were the first pies, the derivation is easy from *pie*, a foot; as in some provinces, an apple *pasty* is still called an apple foot.]

1. Any crust baked with something in it.

No man's *pie* is freed

From his ambitious finger. *Shakspeare, Hen. VIII.*

'Twas witty want. *Dryden.*

3. The old popish service book, so called, as is supposed, from the different colour of the text and rubrick.

The word *pie*, some suppose, derives its name from *πιεζε*, which the Greeks sometimes use for *table* or *index*; though others think these tables or indexes were called the *pie*, from the party-coloured letters of which they consisted: the initial and some other remarkable letters and words being done in red, and the rest all in black. And upon this account, when they translate it into Latin, they call it *pica*. *Wheatly.*

The number and hardness of the rules called the *pie*, and the manifold changings of the service, was the cause, that to turn this book only was so hard and intricate a matter, that many times there was more business to find out what should be read, than to read it when it was found out.

Conn. Prayer, Pref. concern. the Serv. of the Church.

4. *Cock and pie* was a slight expression in Shakspeare's time, of which I know not the meaning. Dr. Johnson.—It was an adurbation by the *pie* or service-book, and by the sacred name of the Deity corrupted.

Mr. Slender, come; we stay for you. —

—I'll eat nothing, I thank you, sir. —

—By *cock and pie*, you shall not choose, sir; come, come. *Shaks. M. Wives of Windsor.*

PIEPOWDER *Court.*† *n. s.* [Supposed by some to be from the Fr. *pied*, a foot, and *pouldré*, dusted, because justice was done to any injured person, before the dust of the fair was off his feet; by others from *pied-pouldreux*, a pedlar, because this court is to determine disputes between those who resort to fairs, and this kind of venders who generally attend them. See Brand's Pop. Antiq. ii. 322.—It should seem to be from the circumstance of fairs being in summer, and the suitors being persons with dusty feet. For though *pie-poudreux*, or *pied-pouldreux*, is found in old French for a travelling vender, as also for one of a wandering disposition; yet our *pedlar*, as Dr. Johnson has observed, may be rather from *petty dealer*, which will remove the application of *pedlar* to the court of *piepowder*. Our old writers evidently thus considered *pedlar* as *petty dealer*: "Light wanderers and *petting* [i. e. *petty*] sellers, who carry about and sell pinnes, points, and other small trifles, whom they call *pedlars*." Booke of Certain Canons, 1571, C. ii. b. "To tender a trade of so invaluable a commodity to these *petting* *petty* chapmen!" Bp. Hall, Contempl. The court of conscience, which in man
Should be supreme and sovereign,
Is't fit should be subordinate
To every *petty court* 't the state,

Allow'd, at fancy of *pie-powder*? *Hudibras*, ii. ii.

in such connexion as to indicate that some kind of *night-dress* for the head is meant, such as might anciently be used even by males: "Oùte cela elle y mit plusieurs autres besonges de nuict, comme coiffes, couruchefs, *pignoirs*, oreilliers, &c." Hist. du Prince Erast. 1564. Dr. Jamieson adds, that he had not met with this word in any French dictionary. It has escaped this learned etymologist, that Cotgrave has the word *pignoir*, a comb-case, (from the old Fr. *pigner*, to comb,) which is probably the convenience intended in the old history.

PLA'NET. *n. s.* [*planeta*, Latin; from *πλαναι*, Gr. *planete*, Fr.]

Planets are the erratic or wandering stars, and which are not like the fixt ones always in the same position to one another: we now number the earth among the primary planets, because we know it moves round the sun, as Saturn, Jupiter, Mars, Venus, and Mercury do, and that in a path or circle between Mars and Venus: and the moon is accounted among the secondary planets or satellites of the primary, since she moves round the earth: all the planets have, besides their motion round the sun, which makes their year, also a motion round their own axes, which makes their day; as the earth revolving so makes our day and night: it is more than probable that the diameters of all the planets are longer than their axes: we know 'tis so in our earth; and Flamsteed and Cassini found it to be so in Jupiter: Sir Isaac Newton asserts our earth's equatorial diameter to exceed the other about thirty-four miles; and indeed else the motion of the earth would make the sea rise so high at the equator, as to drown all the parts thereabouts. *Harris.*

Rul'd like a wandering planet over me,
And could it not inforce them to relent? *Shaks.*

PLANT.† *n. s.* [*plant*, Saxon; *plant*, Fr. *planta*, Latin.]

What comes under this denomination, Ray has distributed under twenty-seven genders or kinds: 1. The imperfect *plants*, which do either totally want both flower and seed, or else seem to do so. 2. *Plants* producing either no flower at all, or an imperfect one, whose seed is so small as not to be discernible by the naked eye. 3. Those whose seeds are not so small, as singly to be invisible, but yet have an imperfect or staminous flower; *i. e.* such a one, as is without the petala, having only the stamina and the perianthium. 4. Such as have a compound flower, and emit a kind of white juice or milk when their stalks are cut off or their branches broken off. 5. Such as have a compound flower of a discous figure, the seed pappous, or winged with down, but emit no milk. 6. The herbæ capitatæ, or such whose flower is composed of many small, long, fistulous or hollow flowers gathered round together in a round button or head, which is usually covered with a squamous or scaly coat. 7. Such as have their leaves entire and undivided into jags. 8. The corymbiferous *plants*, which have a compound discous flower, but the seeds have no down adhering to them. 9. *Plants* with a perfect flower, and having only one single seed belonging to each single flower. 10. Such as have rough, hairy or bristly seeds. 11. The umbelliferous *plants*, which have a pentapetalous flower, and belonging to each single flower are two seeds, lying naked and joining together; they are called umbelliferous, because the *plant*, with its branches and flowers, hath an head like a lady's umbrella. [1.] Such as have a broad flat seed almost of the figure of a leaf, which are encompassed round about with something like leaves. [2.] Such as have a longish seed, swelling out in the middle, and larger than the former. [3.] Such as have a shorter seed. [4.] Such as have a tuberoso root. [5.] Such as have a wrinkled, channelled or striated seed. 12. The stellate *plants*, which are so called, because their leaves grow on their stalks at certain intervals or distances in the form of a radiant star: their flowers are really monopetalous, divided into four segments, which look like so many petala; and each flower is succeeded by two seeds at the bottom of it. 13. The asperifolia, or rough leaved *plants*: they have their leaves

placed alternately, or in no certain order on their stalks; they have a monopetalous flower cut or divided into five partitions, and after every flower there succeed usually four seeds. 14. The suffrutices, or verticillate *plants*: their leaves grow by pairs on their stalks, one leaf right against another; their leaf is monopetalous, and usually in form of an helmet. 15. Such as have naked seeds, more than four, succeeding their flowers, which therefore they call polyspermæ plantæ semine nudo; by naked seeds, they mean such as are not included in any seed pod. 16. Bacciferous *plants*, or such as bear berries. 17. Multisiliquous, or corniculate *plants*, or such as have, after each flower, many distinct, long, slender, and many times crooked cases or siliquæ, in which their seed is contained, and which, when they are ripe, open themselves and let the seeds drop out. 18. Such as have a monopetalous flower, either uniform or difform, and after each flower a peculiar seed-case containing the seed, and this often divided into many distinct cells. 19. Such as have an uniform tetrapetalous flower, but bear these seeds in oblong siliquous cases. 20. Vasculiferous *plants*, with a tetrapetalous flower, but often anomalous. 21. Leguminous *plants*, or such as bear pulse, with a papilionaceous flower. 22. Vasculiferous *plants*, with a pentapetalous flower; these have, besides the common calix, a peculiar case containing their seed, and their flower consisting of five leaves. 23. *Plants* with a true bulbous root, which consists but of one round ball or head, out of whose lower part go many fibres to keep it firm in the earth: the *plants* of this kind come up but with one leaf; they have no foot stalk, and are long and slender: the seed vessels are divided into three partitions: their flower is sexapetalous. 24. Such as have their fruits approaching to a bulbous form: these emit, at first coming up, but one leaf, and in leaves, flowers, and roots resemble the true bulbous *plant*. 25. Culmiferous *plants*, with a grassy leaf, are such as have a smooth hollow-jointed stalk, with one sharp-pointed leaf at each joint, encompassing the stalk, and set out without any foot stalk: their seed is contained within a chaffy husk. 26. *Plants* with a grassy leaf, but not culmiferous, with an imperfect or staminous flower. 27. *Plants* whose place of growth is uncertain and various, chiefly water *plants*.

PLUMP. † *adj.* [Of this word the ety-
 mology is not known. Skinner derives
 it from *pomellé*, Fr. full like a ripe apple;
 it might be more easily deduced from
plum, which yet seems very harsh.
 Junius omits it. Dr. Johnson. — Some
 derive it from the Gr. πλέος, Lat. *plenus*,
 full. Serenius, from the Su. Goth. and
 Germ. *plump*, crassus, agrestis, heavy,
 coarse; which Wachter deduces from
 the Lat. *plumbeus*, leaden; and which
 therefore will not suit our *plump*. Dr.
 Johnson derives the old substantive
plump, a cluster, from the adjective

before us. Perhaps the adjective, how-
 ever, is from the substantive; and the
 substantive a corruption of *klompe*, or
klump, Teut. and Germ. globus terræ,
 massa, a *clump*; whence *klompigh*,
 solidus, et globosus, *solid*, and *round*.
 The corruption of *c*, or *k* into *p* is no
 violent one. Of the adjective Dr.
 Johnson's earliest example is from
 L'Estrange: but it was in use certainly
 before L'Estrange gave it. Cotgrave
 more than once uses it in translating
 French words which denote full, fat,
 fleshy, swollen, or round.] Somewhat
 fat; not lean; sleek; full, and smooth.
 Dr. Johnson has applied it only to the
 animal world: but it is not confined to
 that application; as the following ex-
 ample shews.

The ploughman now

Securely goes after the lazy plough;
 Sows his *plump* seed, and from earth's pregnant
 womb

Expects the wish'd fruits, when the season's come.

 Or cease to push, or to exclaim.

Swift.

PLUMP. † *n. s.* A knot; a tuft; a cluster;
 a number joined in one mass. I believe
 it is now corrupted to *clump*. Dr.
 Johnson. — Perhaps itself is merely a
 corruption of *clump*. See what I have
 said in the etymology of the ad-
 jective.

Of mischief, and polluted from the end

Of his creation. *Milton, P. L.*

- POLTRON.** † *n. s.* [pollice truncato, from

the thumb cut off; it being once a practice

of cowards to cut off their thumbs,

that they might not be compelled to

serve in war. *Saumaise.* Menage de-

rites it from the Italian *poltro*, a bed;

as cowards feign themselves sick a bed:

others, from *poletro* or *poltro*, a young

unbroken horse. *Dr. Johnson.* — Mr. H.

Tooke considers the *pollice truncato* as

the origin of the word, and renders this

derivation subservient to his political

notions. He joins *paltry* with it; but

without any further observation. See

Div. of Purley, ii. 26. — It may perhaps

have the same origin as *paltry*, viz. the

Su.-Goth. *paltor*, rags, Teut. *palt*, a

scrap; whence the application of *paltry*,

or *pelting*, to what is mean, vile, con-

temptible. See **PALTRY**, and **PELTING**.

As to *pollice truncato*, it is far-fetched

indeed. The Ital. *poltro* is rendered an

idle fellow, as well as a coward; and

poltronaccio, a lazy villain, a lout; as

poltroneria also is idleness as well as cow-

ardice. See Florio's World of Words, 1598.

So the Fr. *poltron* is a base idle fellow,

a knave, and a coward. See Cotgrave.

Though the Ital. *poltro*, as a bed, might

thus countenance the derivation, as it

respects laziness or idleness; the north-

ern words, *paltor* and *palt*, seem no im-

probable origin of this term of highest

contempt. A coward; a nidget; a

scoundrel.

Patience is for *poltrons*. *Shakspeare.*

They that are bruised with wood or fists,

And think one beating may for once

Suffice, are cowards and *poltrons*. *Hudibras.*

For who but a *poltron* possess'd with fear,

Such haughty insolence can tamely bear? *Dryden.*

- POLTRON.** * *adj.* Base; vile; contemp-

tible.

Helish oaths and imprecations; that *poltron*

sin, that second part of Egyptian plague of frogs,

and lice, and locusts, the basest that ever had the

honour to blast a royal army.

Hammond, Works, iv. 521.

He is like to be mistaken, who makes choice of

a covetous man for a friend, or relieth upon the

reed of narrow and *poltron* friendship.

Brown, Chr. Mor. i. 36.

- POLTRONERY.** * *n. s.* [poltroneria, Ital.

POLTRONRY. *n. s.* [from *poltron.*] Cow-

Dr. Johnson.—This is far from being a true statement of the word *pothecary*. *Pothecary* is no contraction, but the old English word *poticary*, or *potecary*; probably, as Pegge and others have observed, from the Spanish *boticario*; (the change of *b* into *p* being common;) *botica*, the shop of an apothecary; *bote*, a gallipot. *Apothecary* is a modern word in comparison to the present; and though Dr. Johnson, in illustration of the pretended contraction *'pothecary*, has adduced an example only from Pope, I will give sufficient proof of this original uncontracted word *poticary*, *pothecary*, or *potecary*, from our

PRECARIOUS. *adj.* [*precarious*, Lat. *precaire*, Fr.] Dependent; uncertain, because depending on the will of another; held by courtesy; changeable or alienable at the pleasure of another. No word is more unskillfully used than this with its derivatives. It is used for *uncertain* in all its senses; but it only means uncertain, as dependent on others; thus there are authors who mention the *precariousness* of an account, of the weather, of a die.

What subjects will *precarious* kings regard?

A beggar speaks too softly to be heard. *Dryden*.

Those who live under an arbitrary tyrannical power, have no other law but the will of their prince, and consequently no privileges but what are *precarious*. *Addison*.

If one society cannot meet or convene together, without the leave or licence of the other society; nor treat or enact any thing relating to their own society, without the leave and authority of the other; then is that society, in a manner dissolved, and subsists *precariously* upon the meer will and pleasure of the other. *Leslie*.

Our scene *precariously* subsists too long
On French translation and Italian song;
Dare to have sense yourselves; assert the stage,
Be justly warm'd with your own native rage. *Pope*.

PRECARIOUSNESS. *n. s.* [from *precarious*.] Uncertainty; dependence on others.

The following passage from a book, otherwise elegantly written, affords an

example of the impropriety mentioned at the word *precarious*.

Locke.

PRECAUTIONAL.* *adj.* [from *precaution*.] Preservative; preventive. The word is perhaps not in use; but *precautionary* has, I think, in modern times been adopted.

This first filial fear is but virtuous and *precautional*, and so compatible with a happy constitution; for it perplexeth our present fruition no more than the general notion of our mortality offendeth our present health: the knowledge that we must die, doth not make us sick; no more doth the understanding that our temporary delights are to pass away, disrelish their present savour.

PRÆJUDGEMENT.* *n. s.* [*præjudgement*, Fr. from *prejudge*.] Judgement without examination.

It is not free and impartial inquiry that we deprecate, it is hasty and arrogant *præjudgement*; our warnings are not addressed to those who pursue with patience, modesty, and candour, the fair deductions of reason, but to such as without patience, modesty, or candour, are given not to inquiry but change. It is against those I caution you, who allow nothing to authority, but every thing to what they call reason; who despise the conclusions of wisdom, confirmed by the experience of ages, when they militate against those crude conceptions and narrow views which a weak understanding, acting upon a small stock of knowledge, mocks with the respectable name of judgement.

Bp. of Killaloe (Knox), Two Serms. p. 89.

PRÆJUDICIACY.* *n. s.* [from *prejudicate*.] Prepossession; prejudice.

PREJUDICE. *n. s.* [*prejudice*, Fr. *præjudicium*, Lat.]

1. Prepossession; judgement formed beforehand without examination. It is used for prepossession in favour of any thing or against it. It is sometimes used with to before that which the *prejudice* is against, but not properly.

The king himself frequently considered more the person who spoke, as he was in his *prejudice*, than the counsel itself that was given. *Clarendon.*

My comfort is, that their manifest *prejudice* to my cause will render their judgment of less authority. *Dryden.*

2. Mischief; detriment; hurt; injury. This sense is only accidental or consequential; a *bad thing* being called a *prejudice*, only because *prejudice* is commonly a *bad thing*, and is not derived from the original or etymology of the word; it were therefore better to use it less; perhaps *prejudice* ought never to be applied to any mischief, which does not

imply some partiality or prepossession. In some of the following examples its impropriety will be discovered.

I have not spake one the least word,
That might be *prejudice* of her present state,
Or touch of her good person. *Shaks. Hen. VIII.*

And roofs imperfect *prejudic'd* the sight. *Prior.*

2. To obstruct or injure by prejudices previously raised.

Companies of learned men, be they never so great and reverend, are to yield unto reason; the weight whereof is no whit *prejudiced* by the simplicity of his person, which doth alledge it. *Hooker.*

Neither must his example, done without the book, *prejudice* that which is well appointed in the book. *Whitgift.*

I am not to *prejudice* the cause of my fellow-poets, though I abandon my own defence. *Dryd.*

3. To injure; to hurt; to diminish; to impair; to be detrimental to. This sense, as in the noun, is often improperly extended to meanings that have no relation to the original sense: who can read with patience of an ingredient that *prejudices* a medicine?

The strength of that law is such, that no particular nation can lawfully *prejudice* the same by any their several laws and ordinances, more than a man by his private resolutions, the law of the whole commonwealth wherein he liveth. *Hooker.*
